### Identification

**Resource Title:** Communes Centroids, 2006 - Administrative Units - Data set

**Resource Abstract:** This data set shows pan European administrative boundary centroids down to commune level version 2006. Communes are equivalent to Local Administrative Units, level 2 (LAU2), except for DK (LAU1), GR (LAU1). The Nomenclature of Territorial Units for Statistics (NUTS) and the LAU nomenclature are hierarchical classifications of statistical regions that together subdivide the EU economic territory into regions of five different levels (NUTS 1, 2 and 3 and LAU 1, 2, respectively, moving from larger to smaller territorial units). The NUTS classification has been officially established through Regulation (EC) No 1059/2003 of the European Parliament and of the Council and amendments. A non official NUTS-like classification has been defined for the non-EU countries. The LAU classification is not covered by any legislative act. An introduction to the NUTS classification is available here: [http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts\\_nomenclature/introduction](http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts_nomenclature/introduction) The data set is based on EuroBoundaryMap v. 2 from Eurogeographics. Geographical coverage includes the European Union 27, EFTA countries, Croatia, Greenland, Moldova and Ukraine. The scale of the data set is 1:100 000. The complete data set "GISCO.COMM\_2006" is available via the "EC restricted download link".
