Resource Title: Urban Audit 2001 - Area management - View

Resource Abstract: This view service represents the boundaries of the European cities participating in the Urban Audit. The cities are defined at several conceptual levels: - the core city, using an administrative definition of the Larger Urban Zone (LUZ), approximating the functional urban region and for 8 capitals, the City Kernel, a concept introduced to improve comparability between large cities. The data set used in this service is the "Urban Audit 2001, European Commission - Eurostat/GISCO" dataset based on EuroBoundaryMap 2001 (Eurogeographics) and spatial data supplied by Urban Audit delegates from Member States. The view service follows WMS 1.3.0 protocol. It supports WGS84 (EPSG:4326) and ETRS89 (EPSG:4258) coordinate reference systems. The service operates on data between a scale of 1:1 000 000 and a scale of 1:3 000 000. The coverage is the EU-27 plus Norway (NO) and Switzerland (CH).

Constraints related to access and use

Conditions applying to access and use An overview of the use conditions for Cities, Kernels and Large Urban Zones is given below. The detailed use conditions for these elements are available here: <https://circabc.europa.eu/d/d/workspace/SpacesStore/6f5186f3-908b-413a-8687-191604976751/EuroGeographics%20Use%20Conditions%20-%20From%20Contract.pdf> Access to and use of this view service (WMS) is restricted to the personnel of the European Commission, the Executive Agencies and the contractors. Access to the view service (WMS) by the general public is not possible, due to intellectual property rights. The contractors can access the data after signing an agreement form. The agreement form can be requested by the responsible service from European Commission - Eurostat/GISCO (ESTAT-

GISCO@ec.europa.eu). Once the form has been signed, access will be provided by European Commission - Eurostat/GISCO. The view service can be used in applications accessible to the general public, only if the data visible either has a spatial resolution of 1:3.000.000 or smaller, or less than 20% of the original EuroGeographics data is shown for the extent selected. The source and intellectual property have always to be acknowledged. To this end, an acknowledgement as specified below must be visible on any printed or electronic publication using the data.
