Summary quality information:

European quarterly national accounts are compiled in accordance with the European System of Accounts 1995 (ESA95). Estimates for the euro area and EU27 are based on Member States' data as available, covering 100% of euro area GDP (100% of EU27 GDP). Coverage for the components of GDP may be smaller. These data are seasonally adjusted (and in most cases also corrected for working days) according to national adjustment procedures. Seasonally adjusted European aggregates are calculated from seasonally adjusted Member States' data (indirect seasonal adjustment).

The euro area and EU27 growth rates published today constitute the second estimation for the third quarter of 2010. The first estimation was published in the News Release 182/2010 of 2 December 2010. This was based on a more limited data set than the one used for the present News Release and, additionally, on first estimates for some Member States, which have now been revised. The published growth rate of GDP for the third quarter of 2010 compared with the previous quarter, which had been estimated at +0.4% for the euro area and +0.5% for the EU27, is revised down to +0.3% for the euro area and remains unchanged for the EU27. Compared with the third quarter of 2009, GDP growth, which had been estimated at +1.9% for the euro area and +2.2% for the EU27, remains unchanged for both zones.

With this second regular estimate, previously published euro area and EU27 figures are subject to revision for all variables and all quarters. The next release of quarterly GDP on 15 February 2011 will give a flash estimate for growth in the fourth quarter of 2010. Figures presented in this release may be revised again with the following first regular estimate for the fourth quarter of 2010, scheduled for 3 March 2011. A full release calendar is available on the Eurostat website (Release Calendar).

Further data on the income breakdown of GDP, in particular compensation of employees by industry and gross operating surplus, on national income and saving and on employment are available on Eurostat's website ("Data"/"Economy and Finance"/"National Accounts"). Also there, additional general information on European Quarterly National Accounts is given in the metadata files linked to the data tables.
