

November 2009 compared with October 2009

## Construction output down by 1.1% in the euro area

Down by 0.6% in the EU27

In the construction sector, seasonally adjusted production<sup>1</sup> decreased by 1.1% in the **euro area**<sup>2</sup> (EA16) and by 0.6% in the **EU27**<sup>2</sup> in November 2009, compared with the previous month. In October<sup>3</sup>, production fell by 0.4% and 0.3% respectively.

Compared with November 2008, output in November 2009 dropped by 8.0% in the **euro area** and by 6.7% in the **EU27**.

These first estimates are released by **Eurostat, the statistical office of the European Union**

## Monthly comparison

Among the Member States for which data are available for November 2009, construction output rose in six and fell in six. The highest increases were recorded in **Slovakia** (+13.7%), **Portugal** (+4.1%) and **Romania** (+2.9%), and the largest decreases in **Slovenia** (-4.5%), **Spain** (-3.5%) and **Bulgaria** (-1.9%).

Building construction fell by 1.5% in the **euro area** and by 0.7% in the **EU27**, after -0.6% and -0.4% respectively in October. Civil engineering increased by 0.9% in the **euro area** and by 0.6% in the **EU27**, after +0.2% and +0.6% respectively in the previous month.

## Annual comparison

Among the Member States for which data are available for November 2009, construction output fell in nine and rose in **Poland** (+8.8%), the **Czech Republic** (+6.4%) and **Germany** (+3.8%). The largest decreases were registered in **Romania** (-24.4%), **Bulgaria** (-22.5%), **Slovenia** (-18.1%) and **Spain** (-16.5%).

Building construction fell by 10.5% in the **euro area** and by 9.4% in the **EU27**, after -8.9% and -9.2% respectively in October. Civil engineering increased by 1.2% in the **euro area** and by 4.4% in the **EU27**, after +1.0% and +5.1% respectively in the previous month.

1. The production index in construction approximates the evolution of output within the sector, broken down into building construction and civil engineering. For the Member States which produce the construction index, but do not provide data for the reference period, Eurostat estimates missing values in order to calculate euro area and EU aggregates.  
For total construction, and according to the Council Regulation 1165/98, Eurostat publishes national seasonally adjusted data if available. For Bulgaria, Denmark, Estonia, Ireland, Greece, Spain, Cyprus, Luxembourg, Malta, the Netherlands and Sweden, Eurostat makes the adjustment.  
The seasonally adjusted euro area and EU series are calculated by aggregating the working-day adjusted series from individual Member States and making an adjustment for seasonal effects on these series. Therefore, the seasonally adjusted figures for total construction are based directly on the working day adjusted series from the Member States and **not on an aggregation of the seasonally adjusted indices from the Member States**. The euro area and EU seasonally adjusted growth rates might differ from the weighted growth rates of the individual Member States.  
Working-day adjusted figures are currently transmitted by most of the Member States. For Bulgaria, Denmark and Malta, Eurostat makes the working day adjustment.  
If a Member State does not supply monthly data (data not required by the regulation or data required but not yet sent), Eurostat calculates the missing series by linear interpolation from quarterly data, in order to calculate the monthly European aggregates.
2. The euro area (EA16) consists of Belgium, Germany, Ireland, Greece, Spain, France, Italy, Cyprus, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.  
The EU27 includes Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), the Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE) and the United Kingdom (UK).
3. The figures published in News Release 185/2009 of 17 December 2009 for October 2009 have been revised. Compared with September 2009 the figures were -0.6% in the euro area and -0.4% in the EU27. Compared with October 2008 the figures were -7.7% in the euro area and -6.9% in the EU27.
