

May 2011 compared to April 2011

Construction output down by 1.1% in euro area

Down by 0.9% in the EU27

In the construction sector, seasonally adjusted production¹ fell by 1.1% in the **euro area**² (EA17) and by 0.9% in the **EU27**² in May 2011, compared with the previous month. In April³, production increased by 1.2% in the **euro area**, but decreased by 0.5% in the **EU27**.

Compared with May 2010, output in May 2011 dropped by 1.9% in the **euro area** and by 1.0% in the **EU27**.

These first estimates are released by **Eurostat, the statistical office of the European Union**.

Monthly comparison

Among the Member States for which data are available for May 2011, construction output fell in five and rose in eight. The largest decreases were registered in **Slovenia** (-9.8%), the **Netherlands** (-2.3%) and **Slovakia** (-1.3%), and the highest increases in **Hungary** (+6.5%), **Poland** (+3.7%) and **Romania** (+2.9%).

Building construction decreased by 0.7% in the **euro area** and by 1.3% in the **EU27**, after +0.4% and -0.8% respectively in April. Civil engineering fell by 1.2% in the **euro area** and by 0.2% in the **EU27**, after +1.3% and +0.9% respectively in the previous month.

Annual comparison

Among the Member States for which data are available for May 2011, construction output fell in nine and rose in five. The largest decreases were registered in **Slovenia** (-30.1%), **Spain** (-17.3%) and **Bulgaria** (-16.5%), and the highest increases in **Poland** (+24.7%), **Sweden** (+11.2%) and **Germany** (+8.0%).

Building construction fell by 3.0% in the **euro area** and by 2.5% in the **EU27**, after -2.0% and -1.4% respectively in April. Civil engineering rose by 1.6% in the **euro area** and by 4.4% in the **EU27**, after +1.5% and +3.1% respectively in the previous month.

1. The production index in construction approximates the evolution of output within the sector, broken down into building construction and civil engineering. For the Member States which produce the construction index, but do not provide data for the reference period, Eurostat estimates missing values in order to calculate euro area and EU aggregates. The weights of the Member States in the EU and euro area aggregates can be found at: http://circa.europa.eu/Public/irc/dsis/ebt/library?l=sts_weights_public&vm=detailed&sb=Title
See file: EU27_EA17_NEWS_RELEASE_WEIGHTINGS_2005_nace2.
For total construction, and according to the Council Regulation 1165/98, Eurostat publishes national seasonally adjusted data if available. For Denmark, Estonia, Greece, Cyprus, Luxembourg, Malta, the Netherlands and Sweden, Eurostat makes the adjustment. The seasonally adjusted euro area and EU series are calculated by aggregating the working-day adjusted series from individual Member States and making an adjustment for seasonal effects on these series. Therefore, the seasonally adjusted figures for total construction are based directly on the working day adjusted series from the Member States and **not on an aggregation of the seasonally adjusted indices from the Member States**. The euro area and EU seasonally adjusted growth rates might differ from the weighted growth rates of the individual Member States. Working-day adjusted figures are currently transmitted by most of the Member States. For Denmark, Eurostat makes the working day adjustment. If a Member State does not supply monthly data (data not required by the regulation or data required but not yet sent), Eurostat calculates the missing series by linear interpolation from quarterly data, in order to calculate the monthly European aggregates.
2. The euro area (EA17) includes Belgium, Germany, Estonia, Ireland, Greece, Spain, France, Italy, Cyprus, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.
The EU27 includes Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), the Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE) and the United Kingdom (UK).
3. Data of previous months have been revised compared to those issued in News Release 89/2011 of 17 June 2011. The monthly growth rate for April 2011 has been revised from +0.7% to +1.2% in the euro area and from -0.9% to -0.5% in the EU27. The annual growth rate has been revised from -2.0% to -1.3% in the euro area and from -1.2% to -0.5% in the EU27.
4. Eurostat is not publishing seasonally adjusted (both monthly and quarterly) series for Spain until further notice, due to the volatility of their current working day adjusted data series.
