

October 2011 compared with September 2011

Construction output down by 1.4% in euro area

Down by 1.3% in the EU27

In the construction sector, seasonally adjusted production¹ fell by 1.4% in the **euro area**² (EA17) and by 1.3% in the **EU27**² in October 2011, compared with the previous month. In September³, production decreased by 1.5% and 1.1% respectively.

Compared with October 2010, output in October 2011 decreased by 2.8% in the **euro area** and by 2.0% in the **EU27**.

These first estimates are released by **Eurostat, the statistical office of the European Union**.

Monthly comparison

In October 2011 compared with September 2011, and among the Member States for which data are available, construction output fell in seven, rose in four, and remained stable in the **Czech Republic**. The largest decreases were registered in **Slovenia** (-14.1%), **Portugal** (-9.7%), **Poland** and **Romania** (both -1.5%), and the highest increases in **Sweden** (+1.1%), the **United Kingdom** (+0.6%) and **Germany** (+0.4%).

Building construction decreased by 1.2% in the **euro area** and by 1.4% in the **EU27**, after -0.7% and -1.3% respectively in September. Civil engineering fell by 1.6% in the **euro area** and by 1.4% in the **EU27**, after -1.6% and -0.5% respectively in the previous month.

Annual comparison

In October 2011 compared with October 2010, and among the Member States for which data are available, construction output fell in ten and rose in three. The largest decreases were registered in **Slovenia** (-25.3%), **Portugal** (-11.3%) and **Bulgaria** (-9.5%), and the increases in **Poland** (+9.4%), **Sweden** (+7.3%) and **Germany** (+1.6%).

Building construction decreased by 2.5% in the **euro area** and by 2.2% in the **EU27**, after +0.3% and +0.4% respectively in September. Civil engineering fell by 3.6% in the **euro area** and by 0.6% in the **EU27**, after -1.0% and +2.2% respectively in the previous month.

1. The production index in construction approximates the evolution of output within the sector, broken down into building construction and civil engineering. For the Member States which produce the construction index, but do not provide data for the reference period, Eurostat estimates missing values in order to calculate euro area and EU aggregates. The weights of the Member States in the EU and euro area aggregates can be found at:
http://circa.europa.eu/Public/irc/dsis/ebt/library?l=sts_weights_public&vm=detailed&sb=Title
See file: EU27_EA17_NEWS_RELEASE_WEIGHTINGS_2005_nace2.
More detailed data can be found in the short-term statistics database on the Eurostat website:
http://epp.eurostat.ec.europa.eu/portal/page/portal/short_term_business_statistics/data/database
For total construction, and according to the Council Regulation 1165/98, Eurostat publishes national seasonally adjusted data if available. For Denmark, Estonia, Greece, Cyprus, Luxembourg, the Netherlands and Sweden, Eurostat makes the adjustment. The seasonally adjusted euro area and EU series are calculated by aggregating the working day adjusted series from individual Member States and making an adjustment for seasonal effects on these series. Therefore, the seasonally adjusted figures for total construction are based directly on the working day adjusted series from the Member States and **not on an aggregation of the seasonally adjusted indices from the Member States**. The euro area and EU seasonally adjusted growth rates might differ from the weighted growth rates of the individual Member States. Working day adjusted figures are currently transmitted by most of the Member States. For Denmark, Eurostat makes the working day adjustment. If a Member State does not supply monthly data (data not required by the regulation or data required but not yet sent), Eurostat calculates the missing series by linear interpolation from quarterly data, in order to calculate the monthly European aggregates.
2. The euro area (EA17) includes Belgium, Germany, Estonia, Ireland, Greece, Spain, France, Italy, Cyprus, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.
The EU27 includes Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), the Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE) and the United Kingdom (UK).
3. Data of previous months have been revised compared to those issued in News Release 169/2011 of 17 November 2011. The monthly growth rates for September 2011 have been revised from -1.3% to -1.5% in the euro area and from -1.0% to -1.1% in the EU27. The annual growth rates have been revised from +0.4% to +0.1% in the euro area and from +0.6% to +0.8% in the EU27.
4. Eurostat is not publishing seasonally adjusted (both monthly and quarterly) series for Spain until further notice, due to the volatility of their current working day adjusted data series.
