

May 2009 compared with April 2009

## Industrial new orders down by 0.2% in euro area Up by 0.9% in EU27

In May 2009 compared with April 2009, the **euro area**<sup>1</sup> (EA16) industrial new orders index<sup>2</sup> fell by 0.2%. In April<sup>3</sup> the index decreased by 0.7%. In the **EU27**<sup>1</sup> new orders rose by 0.9% in May 2009, after dropping by 1.7% in April<sup>3</sup>. Excluding ships, railway & aerospace equipment<sup>4</sup>, for which changes tend to be more volatile, industrial new orders decreased by 0.3% in the **euro area**, but grew by 0.4% in the **EU27**.

In May 2009 compared with May 2008, industrial new orders decreased by 30.1% in the **euro area** and by 28.0% in the **EU27**. Total industry excluding ships, railway & aerospace equipment<sup>4</sup> dropped by 30.2% in the **euro area** and by 29.0% in the **EU27**.

These estimates are released by **Eurostat, the Statistical Office of the European Communities**.

## Monthly changes

In May 2009 compared with April 2009, new orders for capital goods grew by 0.4% in the **euro area** and by 1.1% in the **EU27**. Non-durable consumer goods dropped by 0.6% in the **euro area**, but increased by 1.0% in the **EU27**. Intermediate goods declined by 0.7% in the **euro area**, but rose by 0.3% in the **EU27**. Durable consumer goods fell by 1.5% and 0.5% respectively.

Among the Member States for which data are available, total manufacturing working on orders rose in eight and fell in thirteen. The highest increases were registered in the **Netherlands** (+9.7%), **Portugal** (+7.5%) and **Germany** (+4.2%), and the largest decreases in **Ireland** (-13.2%), **Hungary** (-7.6%) and **Latvia** (-7.5%).

## Annual changes

In May 2009 compared with May 2008, new orders for non-durable consumer goods fell by 6.7% in the **euro area** and by 5.0% in the **EU27**. Durable consumer goods declined by 21.5% and 17.5% respectively. Capital goods dropped by 32.3% in the **euro area** and by 29.2% in the **EU27**. Intermediate goods decreased by 34.1% and 33.1% respectively.

Total manufacturing working on orders fell in all the Member States for which data are available. The largest falls were registered in **Estonia** (-39.8%), **Finland** (-39.6%) and **Lithuania** (-38.5%), and the smallest in **Ireland** (-9.3%), the **United Kingdom** (-11.3%) and **Poland** (-15.4%).

1. The euro area (EA16) includes Belgium, Germany, Ireland, Greece, Spain, France, Italy, Cyprus, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.  
The EU27 includes Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), the Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE) and the United Kingdom (UK).
2. The new orders index measures the value of future deliveries of products and services (which are directly linked to these products) to be provided by a producer to a third party on the domestic and non-domestic market. The total manufacturing aggregate includes only those NACE levels required by the STS Regulation to be supplied by the Member States (NACE 13, 14, 17, 20, 21, 24 to 30) and is referred to as "total manufacturing working on orders". The euro area and EU aggregates normally do not include Member States for which no data is available.  
The seasonally adjusted euro area and EU series are calculated by aggregating the unadjusted series from individual Member States and performing an adjustment for seasonal effects on these series. Therefore the seasonally adjusted figures for the European aggregates are based directly on the unadjusted series coming from the Member States and **not on an aggregation of the seasonally adjusted indices from the Member States**. The euro area and EU seasonally adjusted growth rates might differ from the weighted growth rates of the individual Member States. This procedure also implies that the aggregation of the overall figures is not based on the published details.
3. Data of previous months have been revised compared to those issued in News Release 93/2009 of 25 June 2009. The figures for April 2009 were -1.0% in the euro area and -0.5% in the EU27 for the monthly changes, and -35.5% in the euro area and -35.0% in the EU27 for the annual changes.
4. New orders for heavy transport equipment (NACE 30, which includes ships, railway and aerospace equipment) tend to be very volatile with a limited immediate impact on production. The aggregate "Manufacturing working on orders excluding heavy transport equipment" is less erratic. The share of heavy transport equipment in total manufacturing working on orders is 2.9% for the euro area and 3.0% for the EU.
5. Data for Ireland is working day adjusted.
