USER-ORIENTED

What are today the barriers in access to microdata in Slovenia?

Tomaz Smrekar
Statistical Office of the Republic
of Slovenia

CATEGORIES OF BARRIERS

From SORS's point of view:

- Non-eligible requests
- Eligible requests

Researchers often do not know enough:

- Statistical legislation
- Principles of official statistics

NON-ELIGIBLE REQUESTS

- Purpose is not research-analytical, like:
 - Advertising purpose
 - Tax purpose
 - Juridical purpose
- Sensitive data
 - Identifiable microdata
 - Microdata on religion and nationality (sensitive according to the Slovenian constitution)

ELIGIBLE REQUESTS

- Time lag between the request and data availability
- Remote access
- Safe room
